

**Thermoplastic Polyurethane 2mm White/Blue (Medium)**

Application

TPU belts have a combination of characteristics of high strength, low stretch, cut resistance and flexibility. TPU belts are approved by the highest and strictest food standards by authorities such as USDA/FDA-USA and 3-A Dairy-USA. TPU belts can be made endless in minutes using a flat butt welding tool.

Technical Data

<b>Thickness</b>	<b>2mm</b>
<b>Color</b>	<b>White or Blue</b>
<b>Shore Hardness</b>	<b>95A</b>
<b>Maximum Work Load</b>	<b>45 (lb./inch)</b>
<b>Minimum Pulley Diameter</b>	<b>1-1/4 in.</b>
<b>Coefficient of Friction (bottom/steel)</b>	<b>0.36</b>
<b>Temperature Range</b>	<b>-20 to 140 F</b>
