

SuperDrive™

Application

Extremely Hygienic

- SuperDrive™ is a homogeneous belt with extremely smooth operating surfaces
- There are no mechanical parts, joints or crevices to harbor bacteria

Easy to Clean

- Extremely smooth, cut and abrasion resistant surface to ensure effective and easy cleaning

Positive-Drive

- No belt pretension
- No belt slippage
- Increases belt life and operating efficiency

Eliminates Off-Tracking

- SuperDrive™ has integral teeth on the drive-side of the belt which provides a natural guide for your conveying system

Reduced Operating Noise

- Significant reduction of noise levels due to the elimination of the hard, ridged modular components

Technical Data

	FHW-SD	FHB-SD	FMW-SD	FMB-SD
Description	Flat, homogeneous belt, H Family		Flat, homogeneous belt, M Family	
Thickness	3mm	3, 4mm	3mm	3, 4mm
Color	white	blue	beige	blue
Temp Range	-5 to 170 F		-5 to 140 F	
Food Approvals	NSF/FDA/USDA/3A Dairy		FDA/USDA/3A Dairy
