

2 Ply 220# 3/16 x 1/16 Hot Asphalt

Application

This belt is a high heat NBR formulated to withstand the high temperatures and heavy oils of the asphalt industry. It offers excellent abrasion characteristics for an NBR, while maintaining the oil resistance required. With a temperature range up to 350 deg. F it will handle your asphalt needs. It should be noted that with this compound the high temperature is only achievable when heavy oil is present. This belt is not rated above 225 deg. F when light or no oil is present.

Technical Data

	Imperial
Working Tension	220 PIW
Number of Plies	2
Color	Black
Top Surface	Smooth
Bottom Surface	Smooth
Overall Gauge (Approximate)	0.364 in.
Weight (Approximate)	2.22 lbs/sq.ft.
Minimum Recommended Pulley Diameter	10.0 in.
Working Temperature	-40 to 350 F
Recommended Fasteners	Flexco #140
	Flexco #375
	Flexco R2

* Fastener manufacturer should be consulted to review belt and application information.
